

Planning Implementation Form

Submit together with the Voucher Final Reporting Form

Complete this form if you are planning to implement an approved practice developed with the voucher.

NEXT STEPS

- Once the form is submitted, Jenell will review the report and respond with questions and next-step requirements.
- Previous history and current nutrient application data must be collected and submitted by **March 1**.
- Confirmation of implementation and yields is due to Jenell by **August 1**.
- Implementation payments are sent once all data is collected and grant funding is deposited into the MA4R checking account.

PAYMENT PLAN

- **Under 50 acres of implementation** — the farmer is paid **\$35 per acre**, up to a maximum payment of **\$1,750**. There is a minimum requirement of 20 acres, though exceptions may be granted for smaller acreage on a case-by-case basis.
- **Over 70 acres of implementation** — the farmer is paid a flat rate of **\$2,350**.
- **Agribusinesses** are paid **\$500 per farmer** as a data reporting payment, to provide technical assistance, ensure proper implementation, and turn in all required paperwork.

PLANNED IMPLEMENTATION

Planned Implementation Practice:

Planned Implementation Yield Goal:

Planned Implementation Acres:

PLANNED NUTRIENT APPLICATIONS

List planned application sources (e.g. manure or fertilizer type) and the rate of N and P applications to the crop. If there are differences in nutrient applications between baseline and new management, identify those here.

Application	Source	Rate	N (lbs/acre)	P (lbs/acre)
-------------	--------	------	--------------	--------------
